

## BEDBUG TREATMENT PREPARATION FORM

**The following steps are required and will assist in the elimination of your bedbug population.**

Please make required preparations the day prior to your scheduled service day. All steps must be completed for treatment to be performed.

**Please prepare ALL rooms. Your entire apartment must be treated.**

1. \_\_\_ Strip linens on beds and wash them using the hottest temperature that is safe for your items, dry with high heat and place in sealed bags.
2. \_\_\_ Discard torn or heavily infested mattresses and box springs, and dismantle bed frames. Remove mesh covering from under box spring and any infested furniture.
3. \_\_\_ Remove draperies and wash them using the hottest temperature that is safe, dry with high heat and place in sealed bags.
4. \_\_\_ Empty dresser drawers and nightstands in ALL bedrooms. Launder or dry clean all clothing and fabrics, using the hottest temperature that is safe for your items, and place in sealed bags.
5. \_\_\_ Remove items from flooring, especially where the carpet meets the baseboards, including closets. Clean up excess clutter. Pull ALL furniture 2 feet away from walls.
6. \_\_\_ Vacuum floors thoroughly, especially where the carpet meets the baseboards. Vacuum upholstered furniture, paying attention to seams and skirting. Place vacuum bag in an exterior trash receptacle.
7. \_\_\_ Remove carpet from tact strip in infested rooms.
8. \_\_\_ Fish tanks and aquariums must be shut off and covered with plastic.
9. \_\_\_ People and pets must vacate unit for four hours.
