

GERMAN ROACH CLEANOUT PREPARATION FORM

The following steps are required and will assist in the elimination of your roach population.

Please make required preparations the day prior to your scheduled service day.

Once all steps are completed, return this form signed to the leasing office. All steps must be completed for treatment to be performed.

1. _____ **Empty ALL cupboards, drawers, pantry, and clear countertops:** This includes all bathrooms as well as the kitchen. Clean inside of cabinets thoroughly. Make sure all food is sealed tightly in bags or containers. You can place all items in the living room or on a dining table.
2. _____ **Clean your kitchen thoroughly:** Clean all surfaces including countertops, appliances and floors. Pull the stove and fridge away from the wall and clean beneath. Scrub the stove and microwave thoroughly inside and out. Be sure to include the shelves inside the oven and storage drawer beneath. Scrub any/all grease or oil that can be identified as a residue from surfaces paying attention to baseboards/edges where the floor meets wall/ cabinets.
3. _____ **Remove all clutter:** Throw away cardboard boxes, plastic/paper bags and other clutter that can shelter roaches. Throw away expired or deteriorated food from your pantry and in your refrigerator. **Throw out any food containers that cannot be sealed tightly.**
4. _____ **Resident and pets must be out of the unit for a minimum of 2 hours after treatment. Fish tanks must be turned off and covered.**
